How the Rock Works
Enrollment & Authentication

Your Privacy is Ensured

## What is a biometric profile? ...Just a number

The profile does not include identifying information such as name and can not be used to synthesize an image or video.

## Your biometric profile format is proprietary to the Alcatraz system

The profile format is propriety, strongly encrypted, and not shared with third parties.

Alcatraz products are not tracking devices

It detects and authenticates the profiles of only authorized people passing through an entry point.
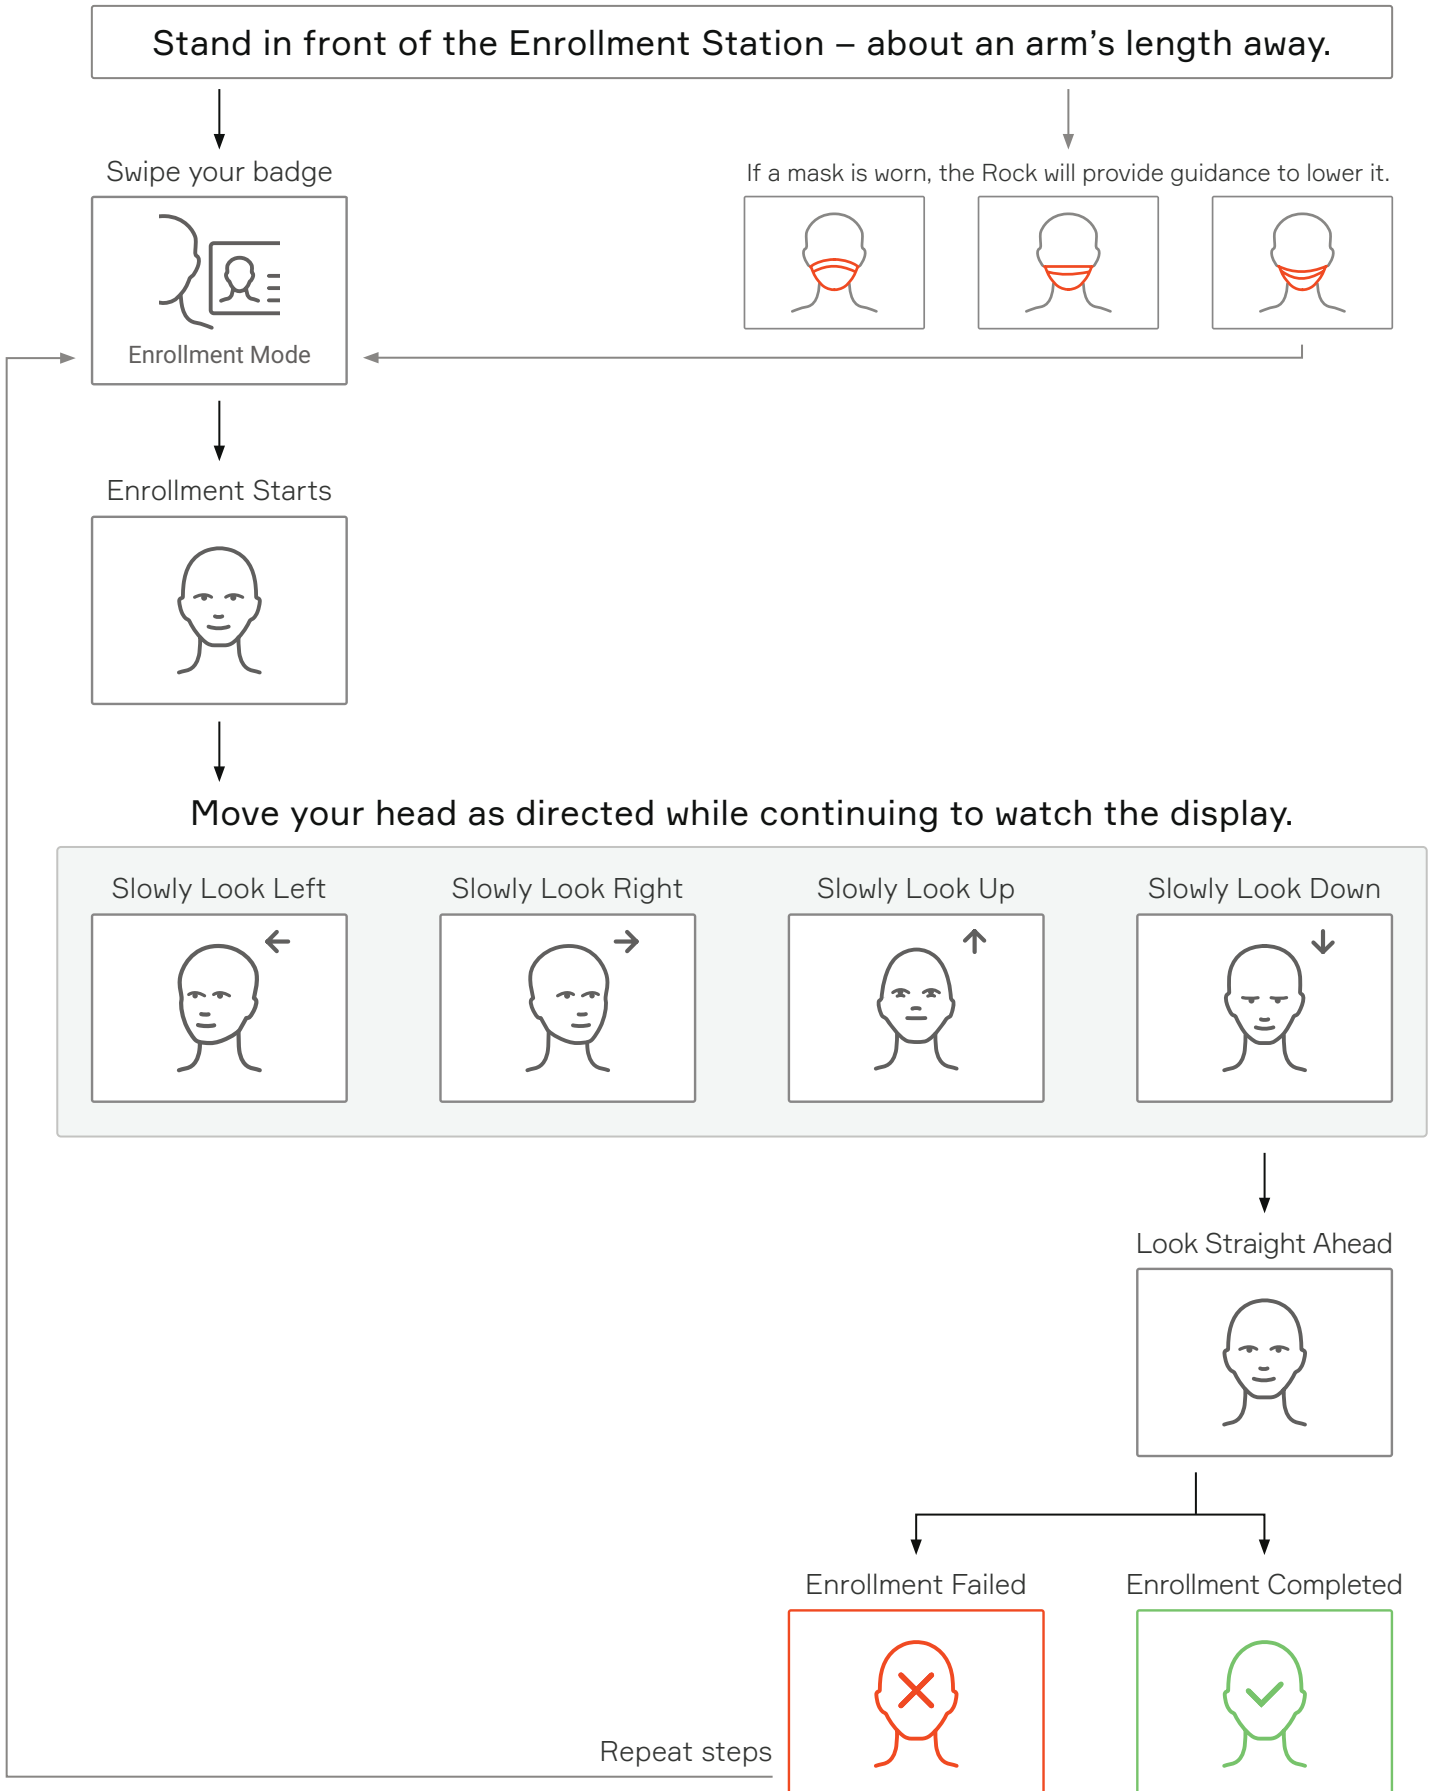

If your profile is not enrolled your data does not exist in our system

If you are not enrolled, your profile will not exist in our database. If your profile is deleted, you may lose access to an entry point.
